Profile

"Passionate self-taught Frontend Developer with expertise in building responsive, user-centric web applications using modern JavaScript, React, HTML, and CSS. Interested in learning Python and Java. Strong problem-solver who transforms design mockups into pixel-perfect, interactive experiences. Continuously expanding my skills through hands-on projects and staying current with industry trends. Excited to contribute my growing technical skills and fresh perspective to a dynamic development team."

Professional Experience

Junior Frontend developer, Trainee at Almdrasa.com [🔗](#)

Frontend Developer (Self-Taught)

- Developed responsive web applications using HTML, CSS, and JavaScript frameworks, enhancing user experience across multiple devices.
- Built responsive UIs with CSS Grid/Flexbox that work flawlessly across devices.
- I am still learning Python and Java and i have experience in them.
- I have done many projects using Python.
- I am interested in solving problems using Java and i have encountered many problems and solve them.
- I use many tools that help me as a programmer like Git | VS Code | Chrome DevTools | Figma.
- Currently learning React.
- Why Hire Me?"I don't just write code - I solve problems. When I'm not debugging, I'm probably:• Analyzing UI designs on Dribbble for inspiration• Writing technical blog posts about what I learn• Helping new coders in online communities"

Education

2023 – 2027 **Bachelor of Business Administration (BBA)/Accounting and Public Administration**
Mansoura, Egypt *Mansoura University* [🔗](#)
